Phone: 9814492315 / 9743200320 | Email: itsmespandan18@gmail.com

Profile

Motivated +2 graduate with deep interest and knowledge in technical work, programming, and hardware systems. Quick learner with strong communication skills and a passion for technology, PC architecture, and software development. Looking for entry-level opportunities to leverage 2 years of independent, hobbyist hardware experience to grow professionally in technical or IT-related fields.

Education

Mid Valley SS College

+2 Graduate

Experience

Hobbyist PC Builder & Hardware Enthusiast (Personal Projects)

2024 - Present

- 1 Dedicated free time over the past 2 years to building, upgrading, and maintaining custom personal computers.
- 2 Researched, sourced, and assembled PC hardware components based on budget constraints and performance requirements.
- 3 Diagnosed and independently troubleshooted hardware and software compatibility issues.
- 4 Performed system testing, optimization, and benchmarking.
- 5 Provided informal technical support and component recommendations to friends, family, and online community members.

Skills

- 1 **Hardware & Systems:** Custom PC Building, Hardware Diagnostics, Component Selection, Cable Management
- 2 **Software & Programming:** Technical Troubleshooting, Basic Programming Knowledge, OS Configuration
- 3 **Interpersonal:** Community Management, Strong Communication, Fast Learner, Team Collaboration

Interests

Cricket, PC Architecture & Custom Hardware, Learning Programming Languages
